

Aliso Viejo Dental
26921 Aliso Creek Rd Ste. B
Aliso Viejo, CA. 92656
949-425-1447
AlisoViejoDental.com

We are a "Mercury Free" Dental Office and we pride ourselves in using only non-toxic , bio-compatible materials for our Patients. We only place Composite fillings, also called "White fillings" since they have the same color as the tooth. We only do Porcelain Restorations and Porcelain Crowns if recommended in cases of larger cavities.

We **safely** remove old Amalgam/Mercury fillings, we use masks, filters special suction tips and a mercury molecules vacuum to protect the Patient and our staff. We use filtration for our waste and suction drain so it's responsibly disposed and recycled and not released in the City drain and further in the environment.

By signing this form you acknowledge that we are a non-toxic , mercury free dental office.
